Sec. 3. Lot area.

Sec. 4. Location of dwellings and buildings.

Only one main building for single-family, two-family, or multiple-family use, with permitted accessory buildings, may be located upon a lot or unplatted tract. Whenever two or more main buildings, or portions thereof, are placed upon a single lot or tract and such buildings will not face upon a street or officially approved place, the same may be permitted when the site plan for such development is approved by the city plan commission so as to comply with the normal requirements for platting.

The city shall determine within 30 days, whether or not the proposed building or structure would create a disturbance or interference to the City of Richardson's telecommunications network.
