EXHIBIT B THIRD PARTY PROCUREMENT PROCEDURES

1. BACKGROUND

The purpose of the 3rd Party Procurement Review procedure is to establish standards and guidelines for the North Central Texas Council of Governments' (NCTCOG) to evaluate the potential risks and oversight responsibilities for our subgrantees who will procure goods and services through Third Party Contracts, in accordance with 2 CFR Part 200.317-326.¹ The implementation of the procedure outlined below should act to:

- Demonstrate compliance with grant requirements;
- Minimize NCTCOG's exposure to legal and compliance issues, including subsequent financial loss;
- Identify the various levels of procurement scrutiny by our federal partners associated with different partners, agencies, and firms;
- Identify the level of review needed to ensure compliance with regulations; and,
- Ensure fair, open, competitive opportunities for all parties involved in procurements.

2. PROCEDURE

Compliance with Federal Regulations

Subgrantees shall comply with applicable federal, State and local laws and regulations, and conform to the standards set forth in 2 CFR Part 200 or applicable governing standards published by the awarding agency. These guidelines apply to purchases for contractual services, commodities, and equipment funded with federal and State funds.

Use of Lower-Tier Subgrantees

If the provisions of a NCTCOG agreement allow a lower-tier subgrantee to manage and administer NCTCOG supported projects, the lower-tier subgrantee must also comply with applicable federal, State, and local laws, and all guidelines established by the applicable funding agency.

Conflict of Interest

There can be no conflict of interest, real or apparent, in the award or administration of a contract supported by federal funds. The subgrantee shall maintain a written code or standards of conduct which shall govern the performance of their officers, employees, or agents engaged in the award and administration of contracts supported by federal funds.

Open and Fair Competition

All procurement transactions shall be conducted in a manner that provides maximum open and fair competition consistent with 2 CFR Part 200 or applicable federal law. Procurement procedures shall not restrict or eliminate competition. Examples of what is considered to be restrictive of competition include, but are not limited to, the following:

- Placing unreasonable requirements on firms/service providers/vendors/consultants in order for them to qualify to do business;
- Placing geographical preferences in the evaluation of bids or proposals;
- Noncompetitive practices between firms/service providers;
- Organization conflicts of interest;
- Requiring unnecessary experience and excessive bonding requirements; and,

¹ UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS TO STATE AND LOCAL GOVERNMENTS; Cost Principles and Audit Requirements for Federal Awards

Any arbitrary action in the procurement process.

Written Procurement Policies

The subgrantee shall have written procurement procedures and may adopt by reference procedural requirements of 2 CFR Part 200 or applicable federal law.

Procurement Guidelines

NCTCOG, in reviewing subgrantee procurement procedures and policies, will determine consistency with 2 CFR Part 200 or the applicable federal law regulating procurement. Stated therein are the governing regulations and implementing guidelines for all procurement activity undertaken with grant funds. Some of those items, with particular applicability to NCTCOG grants, are:

- Subgrantees will maintain a contract administration system which ensures that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.
- Procedures will allow for analysis of the most economical approach in purchasing, including lease versus purchase alternatives. Each proposed procurement must be reviewed to avoid the purchase of unnecessary or duplicative items.
- Subgrantees will make awards only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.
- Subgrantees will maintain records sufficient to detail the significant history of procurement.
- These standards do not relieve the subgrantee of any contractual responsibilities under its NCTCOG contracts. The subgrantee is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual administrative issues arising out of any procurement entered in support of a NCTCOG grant. These include, but are not limited to, source evaluation, protests, disputes, and claims.

Subgrantee Files

Each subgrantee must maintain adequate files to support any purchases made. A copy of the quotes that were obtained (purchases between \$3,000.00 and \$150,000.00) or a copy of the legal notice must also be on file to support the choice of lowest and/or best bid. The subgrantee must provide adequate justification if the purchase is not awarded to lowest and/or best bidder.

Method of Procurement²

All procurement transactions shall be made by one of the following methods. NCTCOG reserves the right to request any and all documentation, either in advance or upon completion of procurement activities, as deemed necessary.

²Specific federal and State requirements apply to each procurement method. Subrecipient must meet all procurement requirements applicable under state law in addition to the requirements set forth herein or as outlined in 2 CFR 200.

1. PROCUREMENT BY SMALL PURCHASE PROCEDURES

For procurement of services, supplies, or other property with an aggregate cost under \$150,000³, written price or rate quotations shall be obtained from at least two qualified sources. The aggregate sum of all items being purchased is considered one purchase. **Purchases equal to or under \$3,000**- Purchases which do not involve the expenditure of more than \$3,000, exclusive of freight or shipping charges, may be made without advertising or otherwise requesting competitive quotes; provided, however, that nothing contained in this paragraph shall be construed to prohibit any agency or governing authority from establishing procedures which require competitive quotes on purchases under \$3,000.

Purchases equal to or under \$150,000- Purchases which involve the expenditure of at least \$3,000 but not more than \$150,000, exclusive of freight and shipping charges, may be made from the lowest and best contractor without publishing or posting advertisements for bids, provided at least two competitive written quotes have been obtained. The term "competitive written quotes" means a quote submitted on a quote form furnished by the subgrantee and signed by authorized personnel representing the contractor, or a quote submitted on a contractor's letterhead or quote form signed by authorized personnel representing the contractor.

2. PROCUREMENT BY SEALED BIDS

Purchases over \$150,000- Public advertisement once each week for two consecutive weeks for competitive sealed bids is required for all purchases which exceed \$150,000. Bids may not be due less than seven working days following the date the last advertisement appears in the public forum.

Purchases which involve expenditure of more than \$150,000, exclusive of freight and shipping charges shall be made from the lowest and best bidder after publicly advertising for competitive sealed bids once each week for two consecutive weeks. The date, as published, for the bid opening, shall not be less than seven working days after the published notice has been completed. The notice shall state the time and place at which bids shall be received; types of supplies, and/or equipment to be purchased, and the contact person. If plans or specifications are not published, notice should state where copies may be obtained. Specifications shall be written so as not to exclude any supplier.

3. PROCUREMENT BY COMPETITIVE PROPOSALS

Purchases over \$150,000- Formally publicizing a Request for Proposals which normally results in conducting competitive negotiation with more than one source submitting an offer. This method is generally used when conditions are not appropriate for the use of sealed bids. All evaluation factors and their relative importance will be identified. There will be procedures for technical evaluations of the proposal and selection of an awardee. Awards are made to the proposal most advantageous to the program, with price and other factors considered.

4. SOLE SOURCE PROCUREMENT

³ This purchase threshold is to be utilized for subgrantee procurements with federal funds. Separate thresholds may be permitted or required under state law for state funded grants.

Noncompetitive items are those available from one source only. In connection with the purchase of noncompetitive items only available from one source, a certification of the conditions and circumstances requiring the purchase shall be filed by the subgrantee with the appropriate NCTCOG project manager. Upon receipt by NCTCOG's project manager, the certification will be forwarded to the appropriate NCTCOG personnel for approval of the request.

Only after receiving authorization from NCTCOG will the purchase be deemed a sole source procurement. All authorizations must be received prior to any procurement transactions. The appropriate NCTCOG personnel may authorize a sole source procurement under the conditions defined in state law, provided that the sole source procurement shall be made according to the established purchasing rules and regulations and shall not be made so as to circumvent the competitive purchasing requirements.

5. PURCHASES UNDER GOVERNMENTAL COOPERATIVE PURCHASING PROGRAMS

Public entities that can purchase under State contracts or other governmental cooperative purchasing programs can do so without prior approval or obtaining written quotes. All other purchases must follow the guidelines outlined in the Contracting Procurement Procedures.

6. EMERGENCY PROCUREMENT

NCTCOG may approve an emergency procurement under the conditions defined in federal and State law, provided such emergency procurement shall be made with such competition as is practicable under the circumstances.

7. ADVERTISING PROCUREMENTS

Procurements to solicit various advertising activities are exempt from a competitive procurement requirement. Generally, the procurement of these items are done through competitive written quotes to ensure a fair and reasonable price is received for those services.

EXHIBIT C LOWER TIER PARTICIPANT DEBARMENT CERTIFICATION

EXHIBIT C CERTIFICATION REQUIREMENTS FOR RECIPIENTS OF GRANTS AND COOPERATIVE AGREEMENTS REGARDING DEBARMENT AND SUSPENSIONS

Department of Transportation (DOT) Circular 2015.1 excludes entities and individuals that the federal government has either debarred or suspended from obtaining federal assistance funds through grants, cooperative agreements, or third-party contracts. NCTCOG has elected to include the requirements of the DOT Circular 2015.1 in all third-party contracts for federal funds. A certification process has been established by 49 C.F.R. Part 29 as a means to ensure that debarred, suspended, or voluntarily excluded persons do not participate in a federally assisted project. The inability of a person to provide the required certification will not necessarily result in a denial of participation in a covered transaction. A person that is unable to provide a positive certification. DOT will consider the Circular may submit a complete explanation attached to the certification. DOT will consider the certification and any accompanying explanation in determining whether or not to provide assistance for the project. Failure to furnish a certification or any explanation may disqualify that person from participating in the project.

Each potential third-party contractor, subcontractor under a third-party contract, subgrantee, or subrecipient must provide to the grantee or recipient of a cooperative agreement, as appropriate, a certification for a lower tier participant. In general, lower-level employees or procurements of less than \$25,000 will not be covered by the certification process procedures, except in the case of procurements with individuals that would have a critical influence on or substantive control over the project; nevertheless, a participant is not authorized to involve a lower-level employee or enter into a contract of less than \$25,000 with a person actually known by the participant to be debarred, suspended or voluntarily excluded.

NCTCOG requires each potential contractor subgrantee, or subrecipient for a third-party contract to complete the certification in Exhibit C.1 for itself and its principals.

If an applicant for a grant or cooperative agreement or a potential contractor for a third-party contract knowingly enters into a lower-tier covered transaction such as a third-party contract or subcontract under a major third-party contract or subgrant with a person that is suspended, debarred, ineligible, or voluntarily excluded from participation in the project, in addition to other remedies available to the federal government, DOT may terminate the grant or subcontract, the underlying grant or cooperative agreement for cause or default.

EXHIBIT C.1 LOWER TIER PARTICIPANT DEBARMENT CERTIFICATION

(Name of certifying official)

, being duly

sworn or under penalty of perjury under the laws of the United States, certifies that neither

(Name of lower tier participant), nor its principals

are presently:

- debarred, suspended, proposed for debarment,
- declared ineligible,
- or voluntarily excluded from participation in this transaction

by any federal department or agency.

Where the above identified lower tier participant is unable to certify to any of the above statements in this certification, such prospective participant shall indicate below to whom the exception applies, the initiating agency, and dates of action.

Exceptions will not necessarily result in denial of award but will be considered in determining contractor responsibility. Providing false information may result in criminal prosecution or administrative sanctions.

SUBJECT: Award of RFP #702-20 for Bank Depository Services to Bank of America pursuant to unit pricing

Proposed Date of Award: May 4, 2020

I concur with the recommendation of Cara Copley – Assistant Director of Finance, and request permission to issue a contract for bank depository services to Bank of America, pursuant to unit pricing.

The award of this contract was based on best value criteria as provided in Texas Local Government Code Section 252.043. Proposals were evaluated on the following criteria specified in the solicitation:

- 1. Ability to Provide Services (30%)
- 2. Cost (25%)
- 3. Online Platform (15%)
- 4. Form of Pledged Collateral Offered (15%)
- 5. Experience (10%)
- 6. Additional Services Offered (5%)

Four (4) proposals were received and evaluated by a committee of employees from Finance and Accounting. Bank of America was the highest ranked firm based on the criteria listed above.

The initial term of the contract is for three (3) years commencing on August 1, 2020 and continuing through July 31, 2023. The contract provides an option to renew for one (1) additional two-year period through July 31, 2025, if exercised and mutually agreed upon by both parties. Since the city is not obligated to pay for a minimum or maximum amount of depository services, payment will be rendered pursuant to the unit prices specified.

City staff estimates fees and earnings as shown in the attached recommendation memo from Ms. Copley based on an analysis of unit prices applied to current activity levels.

Page 2, RFP #702-20 Award Recommendation Memo

The RFP was advertised in *The Dallas Morning News* on March 6 & 13, 2020 and posted on BidSync. A total of 3,770 electronic solicitations were distributed and thirty-seven (37) vendors viewed the RFP. Due to concerns around COVID-19, the pre-proposal conference scheduled on March 17, 2020 was canceled; however, this does not appear to have negatively impacted vendor participation since four (4) proposals were received.

SUBJECT: Award of RFP No. 702-20 - Depository Services

Background:

At the March 2, 2020 City Council meeting, staff updated the Council on requested changes to the City's depository bank contract. Prosperity Bank (formerly LegacyTexas Bank) had requested substantial changes to the collateral that the City allows for securing deposits. The City Council approved a new Investment Policy incorporating the requested changes at its March 23, 2020 meeting, but the City Attorney advised the city to rebid the contract to give all local banks an opportunity to bid with the revised collateral options.

Based on the City Attorney's advice, the City solicited proposals for the bank depository contract. The new contract will be for three years commencing on August 1, 2020 and continuing through July 31, 2023. The contract provides for an option for one (1) two-year extension, ending July 31, 2025. The selection committee evaluated proposals based on the following criteria:

- Ability of the proposer to provide the depository services described in the RFP. (30%)
- 2. Cost of the proposed depository services. (25%)
- 3. Online platform layout, capabilities, functionalities, and statement presentation. (15%)
- Form of pledged collateral offered (based on The City of Richardson's order of preference) (15%)
- 5. Experience and success in providing depository service to large municipal governments in Texas. (10%)
- 6. Feasibility and efficacy of additional services offered (5%)

Final proposals were received from Bank of America, BBVA Compass, Frost Bank and Prosperity Bank. The following chart shows the estimated cost for all bank contract services. The total estimated cost of the contract assumes the two-year extension will be exercised and the City will pay directly for fees:

	Bank of America	BBVA Compass	Frost Bank	Prosperity Bank		
Net Monthly Fees	\$1,764	\$2,965	\$3,643	\$3,738		
Estimated Yearly Cost	\$21,168	\$35,580	\$43,716	\$44, <mark>8</mark> 56		
Estimated Total 5-Year Contract Cost	\$105,840	\$177,900	\$218,580	\$224,280		

Recommendation:

The selection committee believes Bank of America will provide excellent depository services to the City. After considering all RFP grading criteria, the selection committee recommends awarding RFP 702-20 to Bank of America.

The City currently utilizes Frost Bank for safekeeping services and intends to maintain this relationship separately from the depository contract.
